

FOUR COACHES OF TROOP TRAIN ARE OVERTURNED

Six Soldiers Hurt Two Pinned Under Wreckage

SHREVEPORT, La., July 11.—Four coaches of a troop train carrying soldiers from Camp Bowie, Texas, on the Vicksburg, Shreveport & Pacific railroad were overturned into a ditch between Houghton and Doyle, La., seventeen miles from Shreveport early today (Thursday). A long distance telephone message from Dr. J. K. Shepard of Houghton from near the scene of the wreck about 1:08 this morning stated that no one had been killed, but that six soldiers were more or less seriously injured, and two men were pinned under the wreckage, but were not believed mortally hurt.

The accident was attributed to spreading rails. Two relief trains left Shreveport an hour after the wreck carrying doctors and wrecking crews and doctors were sent from Houghton and Doyle.

PREPARE NEW WAR REVENUE MEASURE

Framing of Bill Proceeds in House Ways and Means Committee.

WASHINGTON, July 10.—Preparations for framing a new war revenue bill went forward in the house ways and means committee today with attention centering upon the list of suggestions for new or higher taxes on luxuries and necessities submitted yesterday by the treasury department.

Members of the committee indicated that the list would form the basis for consumption taxes in their draft of the bill, though some of the proposals would be changed and others disregarded.

Besides doubling present taxes on liquors and tobacco, quadrupling soft drink levies and making general increases in other existing rates, the treasury suggestions include taxes of fifty per cent on retail prices of jewelry, watches, and clocks except those sold to army or navy men; twenty per cent on automobiles, bicycles, musical instruments, etc.

Ten cents a gallon is to be paid by the wholesaler; ten per cent on hotel bills for rooms over \$2.50 a day or American plan over \$5; ten per cent on all cafe or restaurant bills and taxes of unstated amounts on men's suits selling over \$30; men's hats over \$4; shirts over \$2; pajamas over \$2; hosiery over 35 cents; shoes over \$5; gloves over \$2; underwear over \$3; all neckwear and canes; women's dresses over \$25; skirts over \$15; hats over \$10; shoes over \$6; lingerie over \$5; corsets over \$5 and all furs, fans, etc., children's clothing including suits over \$15; purses, toilet articles, over \$2.

In addition to all these taxes, which will be levied directly upon the consumer, the list proposes doubling the present motion picture commission tax and imposing a tax of five per cent on movie picture theatre rentals with the present film tax eliminated.

COLORADO FLOOD WARNINGS GIVEN

PUEBLO, Colo., July 10.—Heavy rains over Colorado Springs and a cloudburst south of that city caused the local authorities to issue flood warnings tonight to the people in the lowlands of the Fountain river in the Pueblo vicinity. Local authorities do not expect any great damage to property or loss of life.

DECLARE LOYALTY

Lincoln, Neb., July 10.—The first state convention of the non-Partisan League of Nebraska in session here today declared loyalty to the president and favored aggressive prosecution of the war. The resolution, ordered wired to President Wilson tonight endorsed the high and noble purposes expressed in all his messages, declaration of war aims and terms of peace.

APPLY FOR PAPERS

Springfield, Ill., July 10.—Application for incorporation papers was filed here today with the secretary of state by the Meritt Laboratories, of Peoria, capitalized at \$2,500. J. W. Field, Ray D. Clemans and A. O. Miller are the incorporators.

COFFEY TO DETROIT

Des Moines, Ia., July 10.—Jack Coffey, veteran Western League player and manager of the local team has signed with the Detroit Americans for the remainder of this season and will play second base here announced tonight. The Western League disbanded Sunday.

WIRE LEGISLATION MAY PASS THIS WEEK

Sentiment for Administration Measure is Apparently Increasing.

Washington, July 10.—With formal presentation to the senate today of the interstate commerce committee favorable report on the house resolution empowering the president to operate telegraph, telephone, cable and radio systems during the war, sentiment for the administration measure apparently increased and leaders predicted that it would be passed before the end of the week.

Chairman Smith of the interstate commerce committee announced tonight the resolution will be called up for consideration tomorrow and that if prolonged debate appears probable an effort will be made to hasten vote by displacing the prohibition bill. Managers of the latter measure, it was said, are willing to have the wire control legislation, regarded as an emergency given the right way.

Most administration leaders, however, believe that debate on the wire control resolution will be much shorter than at first anticipated. Adoption of the measure was regarded as certain by the administration managers, while some of the principal opponents privately admit little possibility of its defeat.

Chairman Smith endeavored to expedite the resolution today by asking unanimous consent of the senate for its consideration, but Senator Penrose of Pennsylvania objected and the resolution was sent to the calendar subject to being called up tomorrow.

Opponents of the legislation, mostly Republicans, are prepared for a vigorous attack on the ground that the war necessity of the measure has not been demonstrated and that sufficient investigation was defeated by a majority of the committee.

It is expected that several amendments will be offered, including a proposal to eliminate telephone lines or at least local systems, from the scope of the resolution.

FIFTY BELGIAN GIRLS KILLED BY AIR BOMBS

LONDON, July 10.—(British Wireless Service)—In a recent German raid on the Belgians more than fifty girls were killed by air bombs launched upon an ambulance park at LaPanne, behind the Yser front, according to a special despatch from the Hague, fifty bombs were dropped in the immediate neighborhood of the park and several struck a large villa about a hundred yards from the hospital.

Of the many girls in the villa, engaged in making bandages and repairing linen for the wounded thirty were instantly killed or died from injuries within a few minutes, forty injured were removed from the villa of whom twenty four died later.

DRAFT RESISTERS STILL AT LARGE

LITTLE ROCK, Ark., July 10.—Efforts to bring about the surrender of the band of alleged draft resisters hiding in the Cleburne county hills near Heber Springs today with failure. Lieutenant Robert Prather, Arkansas National Guard who went into the hill country in response to a request by members of the band that a parley be arranged, returned to Heber Springs late this afternoon and reported he had been unable to find the men. This evening Major W. N. Brandon of the Fourth Arkansas, who has been in charge of the civil and military forces seeking the fugitives, announced that plans for closing in upon them would proceed tomorrow.

TO PROVIDE HOME COMFORTS FOR MEN

LONDON, July 10.—A committee of English and Americans has been formed, with Queen Alexandra as patroness, to provide home comforts for American soldiers at the front. The chief enterprise of the committee will be the transport of food and luxuries which the soldiers cannot obtain at canteens and will be along lines similar to the work of committees which provide for British soldiers. The activities of the committee will include correspondence with the American troops and adoption of soldiers, Major George H. Haven Putnam, an American publisher and Lady Walston of Cambridge first suggested the plan by writing letters to the newspapers including contributions. The committee will also endeavor to prevent Americans from receiving parcels from home as extensively as do the British soldiers.

TWO DROWN NEAR WAUPECA, WIS.

WAUPACA, Wis., July 10.—Erwin Mueller, 32, of Lind and his brother-in-law, Earl Dishon, drowned last evening in a little lake near the Bailey Farm on the outskirts of Waupaca. Mueller had attempted to rescue Dishon and is believed to have been attacked by heart failure. The bodies were recovered.

CZECHO-SLOVAK SUCCESS HALTS PLANS OF ALLIES

Legions Re-establish Law and Order in Siberia

WASHINGTON, July 10.—The remarkable success of the Czechoslovak legions in re-establishing law and order in Siberia and overcoming armed opposition from former German and Austrian prisoners of war has had the effect of suspending the preparation of plans by the entente powers and the United States for organization of an international military force to campaign in Siberia. It was stated authoritatively today however, that none of the plans considered had met the objection of the United States government that they involved a weakening of the western front in Europe.

Besides this objection the administration has been reluctant to depart from its policy of non-interference in internal affairs of a friendly country, although it was admitted an exception might be justified in the case of Siberia, if clearly established that the native population was forcibly dominated by Austro-German soldiers and influence.

It is understood that an agreement to try the American proposal to assist the Russians economically to rehabilitate was about as far as the negotiations have now been selected. Recognizing the great value of the work being done by the Czechoslovak campaign in Siberia demonstrated the necessity for revision of any plans for a military campaign in that country. It was said developments were so unexpected that it was not possible to decide how and when military aid should be extended.

There is no intention however of abandoning the plan for introduction into Siberia of supplies from America needed by people of that country and the commission to take charge of this work is now being selected. Recognizing the great value of the work being done by the Czechoslovak campaign in Siberia demonstrated the necessity for revision of any plans for a military campaign in that country. It was said developments were so unexpected that it was not possible to decide how and when military aid should be extended.

PLACE NUMBER OF DEAD AT 89

NASHVILLE, Tenn., July 10.—Officials of the Nashville, Chattanooga & St. Louis railway tonight placed the number of dead as the result of a head-on collision between two passenger trains near here yesterday at 89 and the injured at 79. It is believed most of those hurt will recover. Formal investigation has not been started pending arrival of George L. Loyall, assistant to the regional director for the south.

An inquiry conducted by officials of the road resulted in an announcement today placing blame for the collision on the crew of the accommodation train outbound from Nashville which apparently failed to seek orders as to where it should await the inbound express train from Memphis.

2,600 MEN WANTED FOR MARINE SERVICE

CHICAGO, July 10.—Six hundred recruits a month until 2,600 men have enlisted is the goal of the Chicago Marine recruiting office which started a drive today to bring this city's percentage up to that of the rest of the country. As the Marine Corps has no fund for the purpose Chicago men are financing the campaign.

BREWERS NOTIFIED

Washington, July 10.—Brewers were notified today by Fuel Administrator Garfield that they will not be able to count on supply of coal beyond that needed to use up the materials in the process of manufacture, including material already manufactured. This action was taken, Dr. Garfield said because of the present coal transportation and other shortages.

MEN WANT MORE HOME NEWSPAPERS

Books and Magazines Fail to Meet Demand of Soldiers for Reading Matter.

LONDON, July 10.—"More home newspapers" is the constant appeal of the American soldiers in the camps and hospitals in Great Britain," says an American Red Cross report made public today.

The Red Cross library committee in London is now furnishing reading matter for 25,000 men weekly, the report states, but the supply contains largely of books.

The supply of home newspapers is not equal to one tenth of the demand for them.

"Regarding books," says the report, "the men ask principally for fiction, and light reading matter at that, but the American magazines and newspapers give far greater satisfaction than do books. The cry of the men is continually for more home newspapers."

MITCHEL'S BODY LIES IN STATE AT CITY HALL

Thousands of New Yorkers File By Flag Draped Casket During Evening.

New York, July 10.—Citizens in long lines marched thru the rotunda of city hall tonight by the flag draped casket in which lay the body of Major John Purroy Mitchell, late mayor of New York who left the mayor's chair to serve his country and fell to death in a Louisiana aviation field Saturday. There was no black in the city hall. Bay trees and palms were banked about the walls, stairway and floors were covered with a purple carpet. On the wall hung an American flag, flanked by the colors of the Allies. Spot light rays played on the flags and coffin beside which was a standard of United States flags.

A service flag of white bearing a single golden star was draped beside the casket. Another gold service star was on a shield between the center pillars of the building.

Mayor Hylan and other city officers, past and present followed the bearers to the rotunda where the coffin was placed in a bower of lilies and flowers of every hue. Six lighted candles were placed on the casket and a military guard of honor, which will be relieved every hour until 9 o'clock tomorrow when the funeral cortege will start for St. Patrick's cathedral, took its station.

At 5:30 the iron gates of the city hall were thrown open and word was carried to the waiting throng that the body of Major Mitchell was lying in state. From then until far into the night, men, women and children filed past the casket at the rate of 290 a minute.

The first in line was a little boy, a sailor's son, who was followed by an aged woman, dressed in black and behind her was a bearded woman with a baby in her arms. Then came hundreds of New York citizens of every race and every walk in life.

QUINTEN ROOSEVELT GETS 1ST HUN PLANE

WITH THE AMERICAN FORCES ON THE MARNE, July 10.—Lieutenant Quinten Roosevelt, the youngest son of ex-President Roosevelt brought down his first German airplane this afternoon in a fight north of Chateau Thierry. Lieutenant Roosevelt carried out operations by which the Italian line in this region was reticulated, the war office announced today. On Asiago plateau and in the western region of the Grappa, says the official statement, scattered artillery actions were more frequent and intense.

URGE WHOLE HEARTED SUPPORT OF THE WAR

DES MOINES, Ia., July 10.—Resolutions urging whole hearted support of the war against Germany, ratification of the federal war amendment and the granting of the vote to women were adopted by Republicans of Iowa in state convention here late today.

Except for the nomination of P. E. McClennahan of Iowa City as the party's candidate for state superintendent of public instruction the only nomination not determined in the June primary the convention resembled a patriotic rally more than a partisan gathering.

Patriotism was the dominating theme of every address and the platform declared it the duty of everyone to hold all that he has or is for the deliverance of this country and mankind from the cruel, criminal and atrocious design of the imperial government of Germany.

Governor W. L. Harding's declaration in the keynote address that "the one task is to win the war" was reiterated by United States Senator A. B. Cummings who declared in favor of increasing the draft age to 45 years stopping manufacture of intoxicating beverages "as they take food" and giving women the vote.

SOCIALISTS ARRESTED.

Johannesburg, Union of South Africa, Sunday, July 7.—Today, the first anniversary was made of the concrete action by the government since the crisis of last week when the fact was published of three men being arrested. The prisoners are S. P. Bunting, ex-provincial councillor; S. Hanscomb, described as a butcher, who arrived from America six months ago and a third man of whom little is known. It is alleged the men are international Socialists.

TWO UNDER ARREST

Chicago, July 10.—Two men under arrest in connection with theft of an automobile, Douglas Walton and Arthur Steffen, both of Chicago, confessed today to the police, they took part in the \$30,000 payroll robbery at the Burroughs Adding Machine company plant in Detroit in August, 1916.

ALLIED TROOPS ARE VICTORIOUS IN ALBANIA

Successes Won Add to the Troubles of Austrians

BULLETIN

WASHINGTON, July 10.—An official despatch to the Italian embassy today from Rome said the Italian and French troops in their offensive in Albania have captured 1,000 prisoners, including 50 officers, several airplanes and much war material.

LONDON, July 10.—(British Wireless Service)—Successes won by Allied troops in Albania will add seriously to troubles of the Austrians. They were won by fresh, determined action in the Balkan area where any military success must always have immediate and valuable political reaction.

The line on which fighting is going on at present runs from the River Devoli to the Adriatic, over sixty miles. In addition to the French and Italian troops in the battle, Albanian troops under Essad Pasha are fighting against the Austrians, and, because of familiarity with the country are in a position to give valuable assistance.

Altho the region of the Allied advance is seventy miles from the Saloniki front, there are already signs of nervousness among enemy troops in that area. The advance in Albania is a serious threat to the right flank of Bulgarian armies in the region of Monastir.

A further short advance will bring the Allies to Berat, chief town of Southern Albania. Austrian official statements admit the progress of the French and Italians.

Straighten Italian Line

Rome, July 10.—Italian troops in the Brenta valley on the mountain front yesterday carried out operations by which the Italian line in this region was reticulated, the war office announced today. On Asiago plateau and in the western region of the Grappa, says the official statement, scattered artillery actions were more frequent and intense.

"South of Selveto the carriere of one of our advanced posts at an altitude of 3,941 metres drove back an enemy detachment.

"In Brenta valley we carried out rectifying operations taking 24 prisoners."

Over German Territory

With The American Forces on The Marne, July 10.—(By The Associated Press.)—American pursuit planes flying in squadron formation penetrated German occupied territory north of Chateau Thierry for a distance of 50 miles today and chased several German machines which they encountered. The Americans secured considerable information and observed the preparations being made by the enemy.

Gen. Haig's Report

London, July 10.—Field Marshal Haig's reports from British headquarters in France tonight says:

"In the successful minor operations carried out by us last night in the neighborhood of Merris, we captured nine machine guns and two trench mortars in addition to a number of prisoners. Further prisoners have been brought in during the day by our patrols on different parts of the front. With the exception of some hostile artillery activity in the Morlaucourt, Hinges and Lore sectors there is nothing to report."

Berlin Communication.

Berlin, July 10.—Via London.—The official communication from general headquarters today says:

"In the Kemmel region on the Lys and on the Somme, fighting activity revived in the evening. The French have kept up their violent partial attacks."

"Southeast of Noyon and south of the Aisne they advanced several times with strong forces and established themselves in the farms of Porte and Des Loges, west of Anthuill as well as in old French trenches north of Longpont. On the adjoining sectors they were repulsed by our fire."

"We captured prisoners in a successful local assault west of Chateau Thierry. There has been lively reconnoitering activity by the enemy on both sides of Rheims. Storming troops brought back prisoners from French trenches north of Laritzen."

French Continue Gains

Paris, July 10.—In the sector southwest of Soissons French have continued their gains, occupying LeGrille farm advancing to the outskirts of Longpont and penetrating northern section of Courcy, according to the war office announcement tonight.

The statement reads:

"South of the Aisne our infantry put an end to the enemy resistance at various points north of Chavigny farm. We occupied LeGrille farm and the quarries to the east. Our patrols pushed as far as the immediate outskirts of Longpont. We penetrated the region south of the Devoli river our troops continued their advance in conjunction with the Italian troops and occupied Cafe Gurpe, the highest point of Kosnica Crest which extends in a direction northwest of that of Borna. The Austrians actively having offered vigorous resistance in the course of the preceding days retired in disorder into the Tormorica valley into which we pursued them. We captured 210 Austrian prisoners and important material. Two enemy airplanes were brought down."

WAR SUMMARY

News of Activities On Various Battle Fronts in Summarized Form By Associated Press.

(By The Associated Press)

For the moment the eyes of the allied world are turned away from the battle front in France, where the Germans are believed to be preparing for resumption of their offensive against the positions held by soldiers of the entente nations. The most active area is in Albania, where the French and Italians are continuing their successes against the Austrians. There have been indications recently that an offensive might be begun in Macedonia, if for no other reason than to draw Austrian, and possibly German troops from Italy and France. It is reported Bulgarian are war weary and that a powerful blow along the front north of Salonika might bring about notable military and political results. Teutonic allies in Macedonia have been savagely attacking the entente lines, but have been driven back.

French troops continue their offensive tactics east of Rez Poronice from the Marne to the Aisne. Fighting has gradually extended southward southwest of Soissons, with the French repeating pushing the enemy back from strong positions for which he might easily reach vital ground along the French line of defense. Along the British front there have been intermittent artillery duels deepening here and there into bombardments of great intensity. This has been the case east of Amiens, where the Germans have drenched Australian positions with shells and then attacked in an attempt to regain territory lost when the Austrians and Americans attacked on July 4. The enemy has been repulsed with losses. Near Merris, the British have improved their positions in a minor action.

There have been no events of unusual character along the American-held Italian line, except at Chateau Thierry where American aviators have been active. One squadron has penetrated far behind the German lines and it is believed it brought back valuable information as to the conditions there.

The situation in Russia remains obscure and Germans has as yet made no move as the sequel of the assassination of her ambassador Count von Mirbach at Moscow.

In the mountain sectors of the Italian front the Austrians have been pushed back slightly in the Brenta valley and on the Asiago plateau.

OFFICERS RECEIVE COURT SENTENCES

WASHINGTON, July 10.—Sentence of dismissal from the army and two years imprisonment at hard labor imposed by a court martial on Captain Daniel H. Sullivan, of Camp Dodge, Ia., was approved today by President Wilson who designated the federal penitentiary at Leavenworth, Kansas, as the place of confinement. Captain Sullivan was convicted of selling to other officers military equipment entrusted to his care. The president also approved a sentence of dismissal from the army imposed by a court martial of Second Lieutenant John Francis Monroe, of the 328th field artillery.

Lieutenant Monroe accidentally shot and killed Sergeant Samuel E. Gillman at Camp Custer, Mich., last March. Evidence at the trial showed that the accident resulted from the careless handling of a service revolver by the officer.

PART OF CREW LANDED BY TUG

MONTEVIDEO, Uruguay, July 10.—Part of the crew of the American three-masted schooner Adelia L. Carleton, which went aground Saturday near La Paloma was landed today by a government tug. The captain of the tug reported there were no deaths among the crew but that several men had been left on the island of Flores, Ill from exposure in open life boats and the winter seas.

The Adelia E. Carleton was built at Rockport, Me., in 1892.

RADIO EXPERT MEETS DEATH

MINEOLA, N. Y., July 10.—Bruce M. Culmer, of Martinsville, Ind., was killed today in an aviation accident here.

Culmer a radio expert, was in the front seat of a machine piloted by an aviation cadet named Foreyer, who escaped fatally uninjured from the crash. The machine fell. Culmer was crushed.

trated the northern section of Corey taking fresh prisoner. "Eastern theater July 9.—There was artillery and patrol activity west of the Tormorica valley yesterday the costly checks of yesterday at the Gerna Bend the enemy today again launched his assault troops against our positions north of Monastir and was again repulsed with appreciable loss. In the region south of the Devoli river our troops continued their advance in conjunction with the Italian troops and occupied Cafe Gurpe, the highest point of Kosnica Crest which extends in a direction northwest of that of Borna. The Austrians actively having offered vigorous resistance in the course of the preceding days retired in disorder into the Tormorica valley into which we pursued them. We captured 210 Austrian prisoners and important material. Two enemy airplanes were brought down."

The early Illinois history of itinerant Methodist preachers and circuit riders of the early scattered hamlets and villages of 100 years ago will be related by former Gov. Charles S. Deneen.

Define assurance that there is no danger of a sugar famine has been given by the food administration and the food situation generally was declared to be better than at any time since America undertook the feeding of the allied world. The American public, however, will be expected to observe closely the new regulations limiting the household per capita consumption of sugar to three pounds monthly, and to continue all other conservation measures, at least in part.

On the Fourteenth of July France celebrates her Independence day. There they call it Bastille day, the anniversary of the birth of liberty and human freedom in France, when the Bastille fell and the people reached out for the reins of government. As the people of France celebrated on the Fourth of July, many in this country will respect the Fourteenth. Let the stars and stripes float from your homes and places of business together with the French flag.

The post office department received that no wooden boxes be used for mailing packages abroad. Lightweight wooden boxes break too easily, and heavy ones damage the mail sacks. Corrugated cardboard, heavy paper, bagging, or cloth should be used instead of wood. All packages must weigh seven pounds weight, mail to soldiers in this country could be packed as for overseas.

Black has just been notified by Dr. Franklin Martin, member of the advisory committee of the council of national defense, of his appointment as member of the executive committee of the volunteer medical service corps for the state of Illinois. The other members of this committee are Dr. Joseph T. Cobb, Dr. Charles Adams, Dr. A. A. O'Neill of Chicago and Dr. Clarence A. Earle of Des Moines. Dr. Black is expecting an early meeting of the committee in Chicago.

In general the work of the committee will be to take a census and to classify all the physicians of the state with special reference to their availability for the volunteer medical service corps of Illinois. It will be necessary for the committee to secure accurate information about every physician in the state and to be in position to recommend membership in the service corps or to indicate that for the public good the physician should otherwise devote his time.

The object of the volunteer medical service corps is to establish an emergency medical organization to perform, when required, such civil and military duties as are not now provided for. The services of members will be called for and rendered in response to requests thru a central governing board from the surgeon general of the army, or of the navy, or of the public health service; also from the general medical board of the council of national defense, or from other duly authorized departments. As indicated, the executive committee for the state has an extensive amount of work to perform and the task will be entered upon at an early date.

Can all you can while you can. We have the cans to do it with. Graham Hdw.

LAYMEN'S PATRIOTIC SERVICE.
As previously mentioned, Rev. W. E. Spoons will leave Jacksonville some day next week to report at an eastern city before starting overseas for Y. M. C. A. duties. Next Sunday evening will therefore be the last opportunity he will have for taking part in the union services of west side churches and a special program has been planned. For that evening a laymen's patriotic service will be the program, and Edgar E. Crabtree will preside. There will be special songs under the direction of Ernest Fernandes and the orchestra will also have a special program. The additional order of exercises will be as follows:

Scripture lesson—Rev. A. A. Todd.
Prayer—Rev. F. B. Madden.
Hymn.
Address—M. F. Dunlap.
Address—Andrew Russell.
The Battle Hymn of the Republic—Mrs. Helen Brown Read.
Address—E. M. Vasconcellos.
Address—Rev. J. F. Langton.
Hymn—God Be with You Till We Meet Again.
Benediction—Dr. F. M. Rule.

FAREWELL RECEPTION FOR MR. SPOONS.
The invincible class of the Northminster church has arranged a farewell reception for Thursday evening, July 18, in honor of Rev. W. E. Spoons. There will be a short program with light refreshments. The members of the class regret to see the pastor leave but appreciate the fact that he is going into war work. By arrangement of the officers of the church Rev. J. H. Morris of Simpson, Ill., will occupy the pulpit of the Northminster church during the year Mr. Spoons is absent in Y. M. C. A. work.

SCALDS BOTH FEET.
Oscar C. Crabtree, of 813 North Beesley avenue, met with a painful accident late last night, when, on duty at the C. P. & St. L. shops, he accidentally stepped into a live steam pit, badly scalding both feet. The injured man was removed to his home where Dr. C. E. Black rendered the necessary medical attention.

RED CROSS BENEFIT.
The children in the neighborhood of West North and Pine streets are planning to hold a Red Cross benefit to be given Friday evening at 7:30 o'clock, July 12th, on the lawn at 828 West North St. Admission, five and ten cents.

SECRETS OF GERMANY'S PROPAGANDA DISCLOSE
LONDON, July 10.—The world by this time has become pretty well acquainted with what is known as German "propaganda," but few know the inner workings of this system of spreading false stories and rumors, a system upon which the Kaiser and his crowd place great reliance as a part of their win-the-war program. The system is not a war innovation, however. For many years previous to the war had been employed to spread German influence and extend German commerce over the greater part of the world. In those days it might have been looked upon as a publicity department of the German government, and more or less legitimate in its methods and aims.

But since the war began the system has been employed for other purposes and has been developed into one of the most important hidden institutions in the Fatherland. Its aim and purpose has been to strike the enemy behind its back. Thru the spreading of false "news" and rumors it has endeavored to stir up discontent among the people of the Allied nations, to deceive them as to the real issues of the war, and to destroy their faith in the intentions of their respective governments and the integrity of their statesmen. As a side issue the system has been employed, thru the same methods of spreading false reports, to deceive both the enemy and the German masses as to the true conditions existing in Germany and the strength of the German arms.

Great Lie Factory.
What may be called the great German lie factory conducts its operations in close affiliation with the German secret service. It has its headquarters in the same building occupied by the Foreign Office in the Wilhelmstrasse of Berlin. Here millions of lies are manufactured annually. At a cost of hundreds of thousands of dollars they are spread over the earth. Thru this bureau political crimes assume a new aspect. Germany is represented to be winning, when she is losing, prosperous when she is poverty-stricken, while failures are made into successes, and the truth is distorted so that things take on a new significance.

The entry of the United States into the war necessitated renewed activities on the part of the great lie factory. For the past twelve months it has been working overtime in an endeavor to ease the mind of the German people as to the probable results of American intervention.

Handful of Troops.
The Germans have been told that there is only a handful of American troops in France and that the transport of an army of any proportions across the Atlantic will be an impossibility. They have been told that America has already lost scores of ships and thousands of soldiers by the sinking of the transport vessels on their way across the ocean.

The recent appearance of a German submarine in the vicinity of the American coast has started the machinery of the lie factory running with renewed impetus. Thru its agency the German press has told stories of the havoc shipped with American coastwise shipping by the German undersea craft. The submarines have been represented as pushing their way boldly into the harbors of New York, Boston and other American ports and destroying the shipping and bombarding the cities. The people living along the seaboard have been represented as fleeing in terror to the middle west.

U. S. at German Navy.
If the effusions of the lie factory were to be believed, New York skyscrapers have been toppled over, the American navy has been sunk, President Wilson has been assassinated, the United States army exists only on paper, and the entire country from Maine to California is at the mercy of the Germans.

From time to time the staff of the propaganda bureau changes. But its object is ever the same. News is manufactured for home and foreign consumption, the people of Berlin are as

successfully deluded from the offices of the bureau as the denizens of some native village in India.

Social Events
Outing at Nichols Park.
A number of Beardstown residents have been enjoying an outing at Nichols park this week. They expected to return to their homes last night after several days spent in true picnic fashion. The party included Mr. and Mrs. Bert Landreth, Mrs. Heitz, Mrs. Mary Leary, Misses Katherine Leary, Pearl Wood, Mabel Heitz, Jeannette, Mamie and Mildred Heitz and Albert Webb.

Sinclair Club Had Picnic.
The annual picnic of the Sinclair country club was given last evening at the home of Mr. and Mrs. Chester Wilson, about three miles northwest of Sinclair. An elaborate two course dinner was given by the members of the club and their families, there being approximately seventy-five in attendance. The domestic committee was composed of Mrs. Harry Martin, Mrs. Richard Robinson, Mrs. William Richardson, Mrs. Edward McDodd and Mrs. Chester Wilson. The evening was spent in games and music.

DEATHS
Henderson.
Mrs. B. F. Henderson, 801 North Main street, received a telegram Wednesday afternoon telling of the death of her brother, Oliver Henderson in Denver, Colo. Mr. Henderson is a former resident of Morgan county, living here several years before going west. The telegram did not state any facts regarding the sickness and death of Mr. Henderson.

Mrs. Henderson will leave this morning for Denver to attend the funeral. He is survived by two brothers, Steven J. Henderson of Phillipsburg, Kan., and Oscar Henderson of Denver, Colo., and one sister, Mrs. B. F. Henderson, of Jacksonville. The burial will take place in Denver.

FUNERALS
Spaulding.
Funeral services in memory of John H. Spaulding were held at the Church of Our Savior Wednesday morning with a large number of friends and relatives in attendance. The service was in charge of Rev. Father Cahill. Interment was in Calvary cemetery and the bearers, uncles of the deceased were Martin, Willard and Hugh Craddock, Byron Kindred, W. V. Ludwig and Oliver Spaulding.

WITH THE SICK
Harry W. Amba, a brakeman on the C. P. & St. L., became suddenly ill Wednesday morning and was removed to his home in Springfield on the morning passenger train. The company surgeon accompanied the patient to the capital city.

Born July 2, to Mr. and Mrs. Earl Steinmetz of Chicago a son, Mrs. Steinmetz was formerly Miss Nellie Anderson of this city.

Overland Berger-Pine Co. has sold and delivered to Vernon Rexroat of Arenzville, a model 90 touring car.

The Social meeting of the Ladies Aid society of Centenary church has been postponed until Friday afternoon on account of the funeral of Mrs. Metcalf. The name of Mrs. Kirkman as one of the hostesses was omitted from the account which appeared in Wednesday's Journal.

G. L. Riggs, John Bowns, Deem Rapp and John Boyd motored to Murrayville, Greasy Prairie and Nortonville districts yesterday.

BIRTH RECORD.
Born to Mr. and Mrs. Ben Denny Sunday a daughter, Mrs. Denny was formerly Miss Laura Burke.

MINNETONKA COUNCIL INSTALLED OFFICERS.
At the regular meeting of Minnetonka council No. 71 Degree of Pocatontas held Wednesday evening officers were installed for the ensuing term.

A feature of the evening was the presentation of an Haviland china dish to Mrs. Laura Larson, captain of the degree team. Recently the team won second prize in an all state contest and the members wished to show their appreciation of her efforts with the team.

The presentation speech was made by C. A. McHatten and Mrs. Larson made a fitting response.

The installation work was done by Mrs. Anna Perkins with Mrs. Laura Larson. The following were installed:

Pocatontas—Lillie Robinson. Prophetess—Clara McKay. Wagon—Mary Haynes. Powhatan—J. B. Suiter. First Scout—Katherine Esmond. Second Scout—Mary Coffman. First Runner—Sade Seymour. Second Runner—Cora Caywood. First Counsellor—Laura Leurg. Second Counsellor—Ollie Brown. Guard of the Wigwag—Leonora Seymour. Guard of the Forest—Laura Leggett. Warriors—Mamie Hewitt, Alice Morrison, Ollie Brown, Mary McHatten. Floral committee—Mrs. D. G. Claus, Mrs. Lucille Hoover, Mrs. Mary Quinlan.

DRUM CORPS NEEDS UNIFORMS AND DRUMS.
The Jacksonville Patriotic drum corps, recently organized thru the movement started by Charles DeSilva, is adding constantly to its membership. There is need for such an organization and the members are willing to give their services for any patriotic work. Some of the members have drums and others are using those which they have been able to borrow for a short time. It has been the expressed wish of many people that the members of the corps secure proper uniforms and some additional drums. To that end a committee of business men will be appointed to take charge of the soliciting of a fund, with which to purchase the uniforms and drums. In fact, several business men have already indicated their willingness to serve on a soliciting committee.

The organization will not be in any sense political and will take part in any patriotic program without charge. In fact, Mr. DeSilva speaking for the organization last night said that it is, as the name implies, a patriotic drum corps and that the members are for Jacksonville all the time and will assist in any program which is for the benefit of Jacksonville. Certainly there is room for just such an organization.

SOON TO GO OVERSEAS
Wilson Smith of Waverly, who is in the army, Y. M. C. A. service, was a visitor in Jacksonville yesterday, accompanied by Mrs. Smith, her sister, Miss Clara Louise Henry and Miss Dana Crowell. Mr. Smith has been in the army Y. M. C. A. work for a number of months and was for a time stationed at Camp Sherman, Chillicothe, Ohio. He is now awaiting orders for overseas service and expects to leave for the east at no distant date.

LEAVE FOR SIX WEEKS TRIP
Rev. and Mrs. W. E. Collins will leave Jacksonville this morning for Chicago. From that city Mrs. Collins will go to Toronto, Canada, to spend a number of weeks with relatives. Rev. Mr. Collins will take a special six weeks course of study at the University of Chicago. His work will be largely along sociological lines and he has one course planned in comparative religions.

L. F. Randall left yesterday for Galesburg in response to a message telling of the death of his father.

Letters of Interest from Jacksonville Boys in the Country's Service.

Frank Robinson Writes from Overseas.

The following letter has been received by Mr. and Mrs. Asa M. Robinson from their son Frank. He left here in May, being sent first to Camp Dix.

Somewhere in France, June 15, 1918.

Dear Ones at Home:

Have made another move since my last writing. No doubt you will notice that by my headings, provided they are not cancelled by the censor. We are now located in France but I really don't know where we are and besides I couldn't tell you if I did know. Don't suppose we will be here more than two or three days if that long, but we are all hoping that we will soon be permanently located. Then we can know just where we are and will be able to get some mail.

Haven't received a word from anyone since I left the camp and that has been almost a month. I think, of course I can hardly look for anything in the mail line till we have hit our destination and are there for a while. Hope I can get my mail real regular, even tho I am away over here.

This country is much more different than England in regard to the people. The English seemed so different in many ways. But I have seen both here in France and also in England that many of the women are doing the work that men do in the U. S. and they seem to get by with it very well, too. Nearly all of the street car conductors are women,

or rather they look like young girls about 16 or 18 years old. Well, I started this right after dinner over at the "Y" which is right near our tent here. I was sitting there when I looked up and seeing Siddons Armstrong. He is the young fellow that married Vida Dobson a while back. He was in old Co. B, 4th Infantry, which was in charge of Thomas Hale from home. You know they were all broken up and changed around and he is a sergeant in the ordnance department in a company that come from Texas over here. I saw him come into the "Y" and I didn't know for sure it was him but I just jumped up and yelled "Armstrong." He immediately began to crane his neck and head around and he looked right square at me and still didn't know me. He looked past me and then back at me and then I raised my hand and he recognized me. You should have seen him hop over chairs and benches getting to me and we have spent the entire afternoon together.

Have finished my supper and so will finish this and then go meet Armstrong and also Leonard Wood, Billy Bunk's son and also Bill Smith who used to live over on Duolin avenue and whom I played with when a kid. Hope to have a pleasant evening together tonight and know we will. We are all located right around here in tents together. I can yell right across to these other three boys. The reason I didn't see Wood and Bill this afternoon was because they were on detail work. Well, folks, I think I will stop now and write more the next time. Don't know how long we Jacksonville boys will be together, so have to visit while we can. With lots of love,

Frank.

Writes from Camp Dix.

The following letter was received by Mr. and Mrs. L. A. Cooper of Litterberry, from their son, Carl E. Cooper, with the 153rd depot brigade at Camp Dix, Wrightstown, N. J.

Camp Dix, Wrightstown, N. J.
Co. 1st Bat.,
153rd Depot Brig.,
July 5th, 1918.

Dear Mother:

I received your letter the 4th. I sent you a letter and a card telling you I received the box all right. The wrapping was torn some. I have eaten all the cake, had to, to keep the ants out of it. I have some of the candy left yet.

Yesterday was the fourth. At eight o'clock we marched out to the parade ground in front of the open Y. M. C. A. and had speaking and singing. After that they had a parade. General Scott reviewed the parade.

I guess Pa went fishing the Fourth. I would sure have liked to have been there and gone along.

We are out in tents, but I think we are going to move up in the barracks tonight.

Carl Litter was transferred to the quartermaster's department. I went down yesterday and stayed all day with him. It's about a half a mile from where I am.

I got one letter from Ben. I wrote him the other day and told him to send me Carl Meyer's address. I ought to be getting a letter from him soon.

They have Sunday school at the Y. M. C. A. Sunday. I go most every Sunday.

You asked me if I washed my clothes. Why sure, it's no trick at all. Everything is so handy. They have big washboards in the wash house.

I heard yesterday that they weren't going to take any "Bow Hunks" across. They said they wanted American boys. Who could speak good English.

I didn't pass the overseas examination. You have to be a

pretty good man to go across.

I can hear them shooting over on the rifle range.

If it had been yesterday it would have seemed more like the Fourth of July there were a lot of visitors here yesterday. It's pretty good for some of the fellows here. Their folks can come and visit their boys. But with me I have to stay here and do the best I can to keep myself in good humor.

I went to a good show last night over at the big Y, that's what we call it. But it's the Y. M. C. A. headquarters, I guess the Y. No 2, is the best in the camp. I go to it most of the time.

I chum with a boy named Frank Newton of Paterson, N. J. He certainly is a nice fellow. I am rather glad we came up here it isn't so hot. When we wake up in the morning we are very nearly frozen, shivering like you would in Illinois in the winter. I am well and feeling fine.

From your son,
With love to all,
Carl E. Cooper.

When people referred to "The War" they meant that in Mexico, from which our soldiers had but recently (comparatively) returned.

An epidemic called the "California fever" was very prevalent, and carried off many of our citizens, across the Rocky Mountains to the New Eldorado.

Our Congregational brethren worshipped in a large one-story frame building with brick basement, on the East side of the Square, where King and Johnson's stores are now. (Trade Palace).

The Methodist church, East Charge, was a one-story and basement brick, standing where R. C. Smith's marble building now is. (Really a little west of that).

Rev. L. M. Glover's 1st Presbyterian church occupied the site of the present edifice, and was a one-story and basement brick building, with a high wooden steeple, painted white. (Present site of Journal office).

The Episcopalians occupied a one-story and basement brick, upon the lot they now hold, but the building fronted south on Morgan street. This church had an organ, the only one in town at that time, we think.

A Methodist church was built and called the "West Charge," upon the present site of Grace M. E. church, but that was a one-story and basement brick, devoid of steeple, fronting east to Church street.

The present German M. E. church was owned by the Baptists, and a building, similar in appearance, was occupied by the 2nd Presbyterian society, situated opposite Dr. Glover's church, main entrance.

Bells called the people to meeting in the East Charge, 1st Presbyterian, Episcopal and Congregational churches. A Portuguese Presbyterian church was just getting itself in order.

Among the lawyers were D. A. Smith, Richard Yates, Jas. Berdan, Wm. Thomas, Wm. Brown, (the Judge) and Murray McConnell. D. B. Ayers and Robt. Hock-nall were druggists. Jos. W. King had a one-story, bow-window, jewelry store where D. W. Rawlings now is (Casells).

I. D. Rawlings dealt in clothing. T. D. Eames had a dry goods store on the east side of the Square, and S. Reynolds King also sold dry goods.

A boy named "Billy" D. Crowell, clerked for J. B. C. Smith, who sold dry goods in a frame building where Dobyns & Co. now are. (Myers Bros.).

Philip Price had a jewelry store on the north side, east half of the Square. Geo. W. Fox kept the Mansion House. D. C. Creamer, known as the fashionable merchant tailor, occupied the old, one-story frame on Hatfield's corner. Myers Bros. Ebenezer T. Miller was Post Master.

Samuel Hunt kept the jail in the house next south of the brick livery stable, on N. Main street.

N. English, O. M. Long and Henry Jones were among the prominent physicians.

The town trustees were William Branson, Joseph H. Bancroft, William G. Johnson, Andrew F. Wilson and John W. Lanthrop.

A one story and a half frame building, painted white, was one of the principal stores on the south side, where Huntley now is. (Farmer's Bank).

Next door west of it, stood a large two and a half story frame house, with a yard in front, where Hock-nall & Co., and King & Stephens now are. (Peacock Inn and Bassett's).

Two or three long one story frames occupied the site of Strawn's Opera House, and the only good brick in that block is part of Metcalf & Fell's big dry goods store now. (Browns).

On the west side, south half, the buildings were better, but three or four two story frames were beginning to wear out, where the Central Bank, Fox and Rawlings are now.

The Ayers building was most notable on the north half of the west side.

Two good brick buildings, besides the Mansion House (Park Hotel) stood in that block.

McDonald's and two or three (other) bricks east of it were the ornamental part of the east half of the north side.

Henderson's corner store was built and Bancroft's good brick (now Welsh's) stood opposite, and no other good stores till R.

Hock-nall's, and Eames' building in north half of the East Side.

Then came Stevenson's corner (Herman's), a good brick building, succeeded by two two-story frames, and the Congregational church, then Branson's store, and a two-story frame on the corner.

Hamilton's corner, now Gill's (Waddell's) and the double, Dray-nort, building, were the brick improvements on the South Side, east half, with some of the frames now standing to fill up the spaces.

It need hardly be remarked that the old court house, with its cupola, stood in the southwest corner of the Public Square. (Park).

David Robt. Willsie Catlin, J. S. Anderson, B. F. Stevenson, Wm. Branson, Kibbe & Lathrop, Goltra and Stryker and Edward Lambert were dealers in their respective lines of trade.

In February a new board of trustees was elected, consisting of Jos. H. Bancroft, Michael Rapp, M. H. Cassell, Jonathan Neely and Wm. Hock-nall.

Among the persons having titles from the Mexican War were Col. James Dunlap, Capt. J. L. McConnell, Capt. Wyatt, Col. Chambers and Major Wm. B. Warren. (Lt. Col.).

The old, original, Methodist Conference Female College, was completed this year.

Illinois College graduated the following persons: Wm. H. Collins, now of Quincy, and Edward Ruggles.

Jacksonville Female Academy gave diplomas to Mary A. Allinson, Susan E. Church, Anna L. Holmes, Susan A. Holland, Ebeta M. Holland, Eliza Johnson, Malvina C. Melindy, Harriet Murdock, Harriet Reed and Elizabeth E. White.

Rev. J. F. Jaquess was principal of the Methodist College, and Rev. J. M. Sturtevant of Illinois College.

Mr. Thos. Officer was Superintendent of the D. & D. Institute; J. M. Higgins, M. D., of the Central Hospital for the Insane, then not completed even on the original plan; Dr. Joshua Rhoads was Principal of the Institution for the Blind, which occupied the house west of Jacksonville known as the Robb place. (Norbury's).

(Norbury's).

Revs. J. M. Sturtevant, Theodor Baldwin, J. F. Brooks, E. Jenny, Wm. Kirby, John G. Bergen, Thos. Lippincott, Wm. Carter and Albert Hale, and Messrs. S. D. Lockwood, John Tillson, Thomas Mather, Frederick Collins, D. A. Smith and D. B. Ayers were trustees of Illinois College.

Among the boys going to college in September, were A. C. Clayton, W. B. Cowgill, Phil. Davis, A. N. Denny, Ed. P. Kirby, J. A. Laurie, D. B. Nash, G. Magill, H. M. Merriam, H. W. Miller, R. A. Ritter, H. C. Stephens, J. M. Sturtevant, Jr., M. L. Tunnell and J. Van Doren. (Sturtevant is probably the only one now living.)

The first board of trustees for the Blind Institution was S. D. Lockwood, Jas. Dunlap, W. W. Hopper, Dennis Rockwell and Samuel Hunt, with Lockwood as President, Jas. Berdan, Secretary, and D. Rockwell, Treasurer.

Moore C. Geltra was Superintendent of Construction at the Central Insane Hospital. (It was then the only one in the state).

Jos. Morton, Jas. Dunlap, J. J. Hardin, Jno. Thomas, B. Lett, Wm. Wood, Wm. Thomas, B. Gillett, N. English and O. M. Long were first trustees of the Insane. Judge Lockwood being President, and Judge Thomas, Secretary.

Dr. E. R. Roe, U. S. Marshal for Southern District of Illinois, was editor of the Journal, we think.

Miss Elizabeth Mead was Principal of the Academy during 1850-51.

The Christian church building on N. Main street was erected this year, Elder A. J. Kane being pastor in the new edifice.

Rev. Andrew Todd was pastor of the 2nd Presbyterian church, dying at Casa Blanca, near Monticello, Florida, in September, 1850. Urania Lodge, No. 234, I. O. O. F., was chartered, as was also Ridgley Encampment, No. 9.

Joseph Capps had a small wool carding establishment.

The population was 2,745.

During the campaign of 1850, this district was badly "tore up" by the race between Col. Thos. L. Harris and Richard Yates for Congress.

Mr. Yates was elected, and found himself the youngest member of the House of Representatives.

The Western House was a small hotel and boarding house, on the west side of the Square, upstairs, where Rawlings and Fox now are.

Dennis Rockwell dwelt in the house now occupied by his son, Charles Rockwell on W. State street.

The first district school was built and opened in 1850, being the West District, now called 2nd Ward, (High School) and Newton Bateman was Principal. The third story of the school house was occupied by Masons, for lodge rooms.

At the election, Nov. 20th, Jonathan Neely was chosen Sheriff and Timothy Chamberlain, Coroner.

A young man from New Jersey, named S. Henry Thompson, came to town, bringing his trowel with him, and commenced laying foundations—for the Mayoralty.

MURRAYVILLE

S. R. Robinson was a business visitor at Roodhouse Monday. Chas. Master and family were guests of his parents, Mr. and Mrs. Joseph Masters of Waverly, from Saturday until Monday. They were accompanied home by his sister, Miss Edna Masters for a visit.

Mrs. O. P. Brewbaker and daughter Gertrude Belle, of Blackstone, came Saturday for a visit with relatives and friends.

T. G. Beadles and family of Jacksonville spent Saturday and Sunday with relatives here.

A. J. Saucier of the commission firm of Hanna and Harrison of East St. Louis who with his wife has been visiting relatives here the past week returned home on Saturday afternoon. Mrs. Saucier will remain for a longer visit, hoping that her health which is very poor at this time, may be benefited by the change.

G. T. Henry received a telegram Sunday evening stating his sister, Mrs. Martha Arnold of Hepler, Kan., was dead. No particulars were learned.

**DESCRIBES FIRST
NIGHT IN TRENCHES**
Event Called Epoch-Making Ex-
perience by Captain of Fusiliers
—How Experience Affected
English Lad of Eighteen Years.

London, July.—(Correspond-
ence of the Associated Press.)
What will the first night in the
trenches be, is a question that
thousands of American soldiers
have faced perhaps with some
misgivings, certainly with lively
anticipation. The experience of
many of them must be like that
of a British plough boy-soldier de-
scribed by Lord Dunsany, Cap-
tain of the Inniskilling Fusiliers.

"A man's first night in the
front line is an epoch-making ex-
perience," he writes. "It is like
a man's first vote, or his twenty-
first birthday. It is a milestone
in his life, marking the change
from the mimic warfare behind
the lines to the grim realities of
actual conflict."

First Night in Trenches.
"Perhaps I can best explain
how this experience affects a sol-
dier by telling you the story of a
recruit's first night in the trench-
es. Dick Cheeser, one of my
men, was a ploughboy just past
18 when he enlisted, and just 19
when he went on his first sen-
try 'go' in the front line.

"It was a quiet night, and
dawn was only an hour or so dis-
tant when Cheeser took his post.
The Corporal told him where to
stand, warned him to keep a good
lookout, and left him.

"There was Dick Cheeser, alone
in the dark, with an army in front
of him, eighty yards away, a re-
sourceful, crafty and desperate
enemy. The stillness of the night
only added to Cheeser's feeling of
responsibility. The stillness awoke
him. There had not been a shell
all night. He put his head over
the parapet gingerly and waited.
Nobody fired at him. He felt
somehow that the night was wait-
ing for him, that something un-
canny and unexpected would hap-
pen soon. He heard voices in a
communication trench somewhere
behind him; there were a few sen-
tences of gruff, unintelligible con-
versation; the voices died away.
There was a long silence. Chees-
er fell to wondering whether the
night was black or grey; he star-
red hard at the night to study its
exact color; the night started
back at him, and seemed to be
gratifying him; it was gray,
gray and artful, like a cat or a
fox.

"It was uncanny, thought
Cheeser. If shells would come,
or Germans, or anything at all,
you would know how to take it;
but this deathly quiet, like a mist
over huge valleys! Anything
might happen. Cheeser waited
and waited, and the night waited
too. He felt that they were watch-
ing each other, the night and he,
both crouching, both ready to
spring.

Utter Darkness.
"His mind grew so active that
his head throbbed with the phys-
ical exertion of thinking. He
was watching with eyes and ears
and imagination, hoping to an-
ticipate by a second or two the
dread something that he felt was
sure to happen soon in the omi-
nous mist of No-Man's Land. He
thought of throwing a stone out
into the blackness, just to see
what would happen. Then he be-
gan to wish for his boyhood's
slingshot, so that he could cat-
apult a stone round stone right
across the blackness into the Ger-
man line.

"A little wind blew in the night
too cold for the time of year. It
made for a moment a lane in the
mist over No-Man's Land. Chees-
er peered into it, but the mist
closed round again. 'No,' Night
seemed to say, 'You can't guess
my secret.' And the awesome
hush intensified. What are the
up to now? thought the sentry.
What are those crafty enemies
planning in all those miles of sil-
ence?"

SUMMER DULLNESS

PREVALS ON MARKET
NEW YORK, July 10.—Mid-
summer dullness prevailed the
greater part of today's stock mar-
ket but the final hour was en-
livened by active selling and num-
erous net losses. United States
steel and related industrials as
well as shipings and various
specialties were carried down.
Standard rails were at their best
in the latter dealings but forfeit-
ed their moderate gains. The
market's lethargy during the ear-
ly and intermediate periods was
commonly ascribed to the propos-
ed luxury tax and the govern-
ment's exhaustive weather report
which again dampened crop pros-
pects. Utilities, notably gas shares
were heavy at all times. People's
gas being a striking exception at
a three point advance.

Sales 310,000 shares.
Bonds were steady on light
trading, liberty issues making par-
tial recoveries from their early
setback. Sales \$4,750,000.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of *Dr. J. C. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that try with and endanger the health of infants and children. Experience against Experiment.

What is CASTORIA
Castoria is a harmless substitute for Castor Oil, Purgative, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. **Emphatically Asserts Worn
Out, Lagging Men Can
Quickly Become Vigorous
and Full of Ambition**

7 A DAY FOR 7 DAYS

Don't blame the man who is perpetually tired; his blood needs more red corpuscles and his brain and nerves are craving for food. Given the right kind of medicine any tired-out, inactive, lagging fellow can quickly be made into a real, live, energetic and even ambitious man.

So says a student of the nervous system who advises all men and women who feel worn out and who find it hard to get up ambition enough to take a regular job to get a package of Bio-feren at any drugstore.

This is the new discovery that pharmacists are recommending because it is not expensive and speedily puts vigor and ambition into people who despaired of ever amounting to anything in life. People whose nerves have been wrecked by too rapid living, too much tobacco or alcohol, have regained their old-time confidence and energy in less than two weeks.

No matter how that cause your nerves went back on you, no matter how run down, nervous or tired out you are, get an original package of Bio-feren at once. Take two tablets after each meal and one before bed-time—seven a day for seven days—then one after each meal till all are gone.

Then if you still lack ambition; if your nerves are not steady and you haven't the energy that red-blooded, keen-minded men possess, your purchase money will be gladly returned.

Note to Physicians: There is no secret about the formula of Bio-feren. It is printed on every package. Here it is: Lecithin; Calcium Glycophosphate; Iron Peptonate; Manganese Peptonate; Ext. Nux Vomica; Powdered Gentian; Phenolphthalein; Oleoresin; Capsicum; Kola.

PLAN TO IMPROVE U. S. SALES ABROAD
London, June.—The trade acceptance, discounting and bill exchange business in America today to remove the old "lack of capital" difficulty were based to a great extent on the older international acceptances. But the way in which they have served American business at home suggests that great improvement can be made in American sales abroad by similar means. It appears to be the belief of the American Chamber of Commerce here that so long as American manufacturers feel that they must demand cash against goods in New York there will be serious weakness in American foreign business.

The American Chamber of Commerce is making a detailed study of the terms at present demanded by American firms doing business with England. It intends to propose a plan for extending the advantages of American trade acceptances to all American firms willing to export.

LARGE WHEAT YIELD IN NORTHERN MEXICO.
Juarez, Mex., June.—"Mexicans in the north are raising less devilry and more wheat" was the way an American mining man who reached here recently from a tour of the interior of Chihuahua state characterized the conditions in Northern Mexico. In the fertile Laguna basin near Torreon, wheat has been planted instead of cotton this year because of the ravages of the pink boll weevil in that district last year which destroyed the cotton crop. In the little valleys near Santa Rosalia, Jimenez and Pilar de Concho the native farmers have been harvesting their wheat crops and have found the yield much heavier than in former seasons. Along the Rio Grande and Conchos rivers in the Ojinaga district wheat harvests have been bounteous and the farmers in that district are prosperous. At Jimenez the old Hacienda Dolores mill, which was used as a fortress during the revolutions, has been started to grinding grain and the water power mills near Santa Rosalia are again operating after five years of idleness.

Nearly all the members of the New Orleans team have landed berths in the big yard since the closing of the Southern league.

WOULD BE SOLDIERS SEEK GULF COAST
New Orleans, June 29.—Scores of young men, informed by army and navy doctors that they were underweight have hied themselves to the Gulf coast and extended to hotel or boarding house proprietors that the duration of the war depended upon their gaining so many pounds in a certain length of time.

At first some of the boarding house and hotel proprietors were unenthusiastic over the prospects of a disappointed loss of patronage to their establishments. Later, according to those who have returned, whenever a youth, rather pale and slim applied for board he was greeted with the question: "How much do you have to gain and when must you report?"

"It's easy when you know how," one boarding house proprietor explained. "They go out and swim in the salt water, get an enormous appetite and we feed them coarse, nourishing food, nothing fancy. They gain several pounds a day, some of them."

SIX WOMEN IN 'PIRATES' BAND
Tokio, June 29.—Six women are among a band of Inland Sea pirates recently arrested by gendarmes. It is expected that the entire number of the group will be taken into custody soon.

Mrs. Chester Colton and little daughter are enjoying a visit with her parents, Mr. and Mrs. Albert Gibson near Franklin.

Quite a number of our village people also a great many from the surrounding community enjoyed the Fourth of July celebration in Jacksonville.

U. S. ARMY OFFICER WEDS IN RUSSIA
Wild Ride Thru the Battle Lines Brought Lieut. A. W. Kliefoth to Petrograd in Time to Keep Marriage Engagement.

Vologda, Russia June.—(Correspondence of the Associated Press)—A wild three day sleigh ride thru the battle lines of the Finnish White Guards and Red Guards brought Lieutenant Alfred W. Kliefoth of the United States Army, to Petrograd just in time to keep his marriage engagement.

Lieutenant Kliefoth, who was American passport control officer at Torneo, the Finnish border city at the Swedish frontier, left Torneo for Petrograd at a time when the railway communication was interrupted by the Finnish civil war.

He was forced to leave his train, but obtained a sleigh and after three days' journey across the barren, snow covered and wolf infested interior of Finland reached another railway line and made his way to Petrograd.

On the night of February 20, after hurried preparations, Lieutenant Kliefoth and Miss Barbara Alexandria Leslie were married at one of the larger Petrograd churches. The next day Lieutenant Kliefoth and his bride, left with a train of American refugees who were fleeing from Petrograd. But, instead of going all the way thru to America as he had planned, Lieutenant Kliefoth was recalled from a little station on the Trans-Siberian railway to join the embassy staff at Vologda.

Lieutenant Kliefoth's home is in Fond du Lac, Wisconsin. He is a graduate of the University of Wisconsin. He met his bride while attached to the American embassy at Petrograd.

Mrs. Kliefoth is a Russian. She is a daughter of General Leslie, a descendant of one of the Scotch officers at the court of Peter the Great, is a niece of Countess Tolstol and was a lady in waiting at the Russian court in the old regime.

RUMANIA A DESOLATE AND BARREN COUNTRY

Is Awful Object Lesson of the Cost of War—Two Years Ago Was One of the Garden Countries of the World, Teeming With Agricultural Wealth and Prosperity.

London, June.—(By The Associated Press Correspondent from Jassy)—Rumania is a desolate and barren country today—an awful object lesson of the cost of war. Two years ago it was one of the garden countries of the world, teeming with agricultural wealth and prosperity. More than 750,000 Russian soldiers lived in it for nearly a year and they left very little behind them.

Anyone who has known Rumania as she was when peace was forced upon her by the Central Powers, must be convinced that it will be years before Germany can draw from her fields and orchards any very valuable tribute.

Nor is the German control of Rumania's petroleum likely to be a very profitable investment for some time. In the so-called "occupied territories," the destruction of the oil fields was so complete, that Germany after fifteen months of effort, is able to measure her supplies from this source in quarts.

In the rest of Rumania, it is doubtful if production can be much increased beyond that of the past year, and during the past year petroleum has been one of the scarcest articles in the country, obtainable only under personal and special license from the government.

During the middle of the winter, The Associated Press correspondent made a tour of inspection around a score of the frontier towns where the largest proportion of refugees population had been dumped in the hurried retreat before the German hosts. Conditions were serious beyond description, but the major part of the suffering was due to famine rather than exposure.

The shortage of food was such that in many instances refugees were seen in the fields eating—or attempting to eat—grass.

Terrible as was the plight of the people of these refugee districts in war time, they can hope for little alleviation with the coming of a forced peace. Practically no harvests can be expected this year in these districts, for no seed will be available, and moreover there are no agricultural implements left, nor any horses or draft animals of any kind. Thousands of Rumanian horses died of starvation during the winter, for the peasants were too exhausted in caring for their own needs to make any attempt to provide for their beasts.

CAMP FIRE GIRLS IN BUSINESS SESSION

The Yojasori Camp Fire girls met Wednesday afternoon in a business session with Mrs. Frank J. Heint on South Diamond street. At this time guardian and assistant were elected, due to the resignation of Miss. Lone Kuechler. Mrs. Heint was elected guardian and Miss Ruth Bailey assistant guardian. The following officers were also elected for the coming term: Secretary, Katherine Wilson; treasurer, Mabel Rogers. At the close of the business meeting light refreshments were served.

U. S. WARSHIPS AT BUENOS AIRES
Buenos Aires, Argentina, Monday July 8.—An American warship arrived here today for a visit of courtesy to Argentina in connection with the anniversary of the Argentinian independence day which occurs tomorrow.

Vice-Admiral William B. Caperton, U. S. N., will arrive from Chile tomorrow to take part in the celebration.

BUSINESS WOMEN TO MEET

Cincinnati, O., July 10.—Women who have achieved success in almost every line of business and professional activity are to gather in this city the coming week for what promises to be the most notable gathering of its kind ever held in this country. The occasion will be the second annual convention of the National Association of Business Women's Clubs, an organization formed a year ago with a view to advancing the common interests of women engaged in business. The local committee in charge of arrangements for the gathering is in receipt of advices indicating that the convention will be attended by women from every section of the country. A number of women of national prominence have accepted invitations to address the gathering. This session will begin Tuesday and continue thru the remainder of the week. The war activities of women along business lines will occupy a foremost place in the discussions.

SOUTHERN CHRISTIAN LEADERS

Memphis, Tenn., July 10.—All the railway trains arriving here today brought delegations to the All-South Christian Endeavor convention, which is to be formally opened in this city tomorrow for a session of several days. More than a dozen States will be represented at the gathering. Christian Endeavor in wartime will furnish the chief theme of the convention.

The Boston Braves were the first big league team to play twilight baseball, their games a home being scheduled to start at 6 o'clock.

WAR WORK HEAVY NOW AT THE CAPPS MILLS

GOVERNMENT ORDERS TAKE PRECEDENCE AT WOOLEN GOODS PLANT.

Delays Ahead of Contract Requirements as Result of Effective Organization—U. S. Has Full Control of All Raw Materials and Fixes Profits Permissible.

The public has known for many months past in a general way that the big plant of J. Capps & Sons, Ltd., is operating now very largely on government orders. Along with the rapid development of the army and the pushing of other war preparations an enormous demand has been created for the manufacture of woollen products. To accomplish the best results the government has practically taken over the woollen industry of the country and is seeking thru its control and distribution of raw products to speed production and at the same time insure satisfactory results. The government supervision is so organized that its profits are limited to an entirely proper basis.

The Capps & Sons mill is one of the very few of its kind in the Mississippi states and its excellent facilities are being utilized to the limit in the effort to produce garments and materials which the government now so urgently needs. The force of employees is larger than ever and because of their loyalty and the effectiveness of the mill organization the war work for months past has been progressing at a rapid and satisfactory rate. The interest of the public is growing every day as the people come into a more intimate knowledge of what the war really means, and so there is an increasing interest in the extensive war work which the Capps & Sons mill is now doing.

Orders are Distributed. Government activities, in the way of procuring the necessary materials for the prosecution of the war, have resulted naturally in a concentration of the heaviest business in the manufacturing districts in the east, especially New England; and the textile lines, although it is policy of the government to distribute its orders now throughout the country generally, to meet the urgent demand and to keep the activities of labor and manufacturing interests fully occupied and in plan of curtailing the non-essential products of labor, with a view of getting the country on a war basis.

For a good many months past the Capps mill has been operating quite a large per cent of its capacity in making 30 oz. O. D. overcoating for the soldiers, and is now operating the woollen mills on about an 85 per cent production of this goods. Deliveries are up to contract requirements and in fact the firm has already anticipated deliveries to the extent of 30 to 60 days.

By reason of the Government control of the products of the mills, and the fixed prices of raw materials, woollen mills are now required to operate at least 60 per cent of their capacity on government work, and if they do not take government work, they are not able to secure the raw materials, for no allotments of wool and raw materials are being made for the manufacture of civilian goods for the present, and with no definite promise as to when such allotments will be made for civilian use; which illustrates the urgency on the part of the war department to have woollen clothing on hand to meet the requirements of the enlarged army, and prevent any shortage of equipment in clothing that occurred last fall and winter.

Speeding Production.

H. M. Capps, president of the firm, said recently:

"Our employees are co-operating loyally in speeding up production and have been encouraged to do their best by several wage advances during the past year, following the wage advances all over the country in the industry; so that we are running our plant at as full capacity as possible. The draft has taken a number of our employees and as a result of this and need of additional help to run full handed, we have taken in a larger number of 'learners' and new helpers, and positions are open right along in various departments for employment at good wages. There is one decided advantage in running on government work, namely, that it is all of one kind throughout the entire mill, which simplifies the various processes of manufacture and enables learners to become proficient in a shorter time than would be possible in a varied production, which requires more skill. There is a constant tendency to employ women owing to continuing scarcity of men labor by reason of the draft, and people are now willing and anxious to work, both from patriotic motive and also by reason of the high wages obtained."

As an illustration of how the government spends its money raised in taxes and through the Liberty Bonds, it is of interest that the wool and clothing industry, particularly the mill manufacturing, has switched over almost entirely from the making of civilian woollens to government uniform goods. This means the payment of hundreds of thousands of dollars to the business, which goes to the payment of raw materials, and of wages distributed in this community, so that in a measure the money that has been so patriotically furnished by Jacksonville and Morgan county, comes back in this degree to which the government disburses money for payment of good that the Capps mill is producing under government contract.

The government control of the wool and clothing business is almost complete, from the raw material to the manufactured product. Prices on the raw materials have been fixed and all stocks of old wools on hand, a few months ago, were taken over by the government and valued and also the price of all new wools shorn this year has to be bought on government contract and shipped to distributing markets and turned over to the government for appraisal and disposal, under allotments to the mills, and used entirely on government work and it will be probably several months, if not longer, before any wools will be available to the mills to make civilian goods.

This control of the raw material price and fixed price paid for the manufactured goods, has limited profit of manufacturers to a reasonable manufacturing cost. The government has taken into consideration the necessary wage advances in the price they pay for the product, but undoubtedly the maximum advances in wages have been made and with fixed prices of raw materials, foods, coal, etc., prices generally will be stabilized and not subject to the violent changes and advances that occurred during the last year. During the recent weeks, that is, the season for shearing the wool from the sheep, all farmers who own sheep have been interested in disposal of this product and many hundreds of interviews, personally and by letter and phone, have been necessary during the recent weeks to inform the growers of wool as to the method of the government control and price fixing.

The Capps mill in buying is acting under government regulations as a "licensed dealer" and buyer, the job being to classify the wool, to pay the farmer the fixed government price for the different grades, less a very small commission allowed, which barely covers cost of handling; and the growers have accepted this price fixing, as a rule, with entire satisfaction, understanding the needs of the government and that all wool so bought by the mill has to be immediately forwarded and transferred to government account for their allotment and disposal of the mills, after the wool is appraised and valued.

Strict Accounting Required. At the end of the fiscal year, the firm's books showing purchases of all wools from every grower, are to be checked up by the government officials and if the proceeds received from the government are more than 1½ per pound, gross, with freight charges, than amount which was paid to the growers for the wool, this excess is tabularly interpreted to say that further discussion was unnecessary as he had made a decision and he then announced the ruling.

AMERICAN ESCAPES FROM GERMANY. PARIS, July 10.—Corporal Everett Buckley of Kilburne, Ill., an aviator in the French service, was captured by the Germans at Verdun, has escaped from Germany. According to a despatch from Zurich to Le Journal he reached Switzerland on Tuesday morning.

When Corporal Buckley who was a member of the Lafayette Flying Corps, first disappeared last September, it was reported he had been killed. Paris friends denied this and in November it was ascertained that Buckley was a prisoner in Germany after having been wounded.

Parents Delighted. Springfield, Ill., July 10.—Parents of Corporal Everett Buckley, who reside on a farm near Knoxville, Ill., were delighted today to learn of the news, carried in Associated Press despatches, of the escape of their son from a German prison camp. They had received no word from him for several months.

Corporal Buckley, who is 24 years of age, had been in the French air service nine months when he was reported as missing. His wife resides with her parents in Chicago where her husband was engaged in the automobile business before joining the air forces of France. He had taken three years of automobile technical training in the University of Illinois.

EMPEROR WILLIAM SUFFERS INFLUENZA. ROME, July 10.—Emperor William himself has fallen a victim to the influenza that has been so prevalent in the German army, according to advices from a Swiss source that have reached the Epoca. These declare that the emperor has gone home from the French front because of the attack of the "Spanish Grippe" as it is called, and that several members of the emperor's family are not suffering from the same malady.

OPERATION SUCCESSFUL. Rochester, Minn., July 10.—William A. Sunday, the evangelist, was operated on for hernia at a local sanitarium this forenoon. After Sunday recovered from the effects of the anaesthetic it was announced that the operation had been successful.

and this Walk-Over pump clings instead of slipping when you walk. A small but efficient piece of soft surface ooze-leather inside of the heel-piece loyally attends to that.

A pump that you don't have to hold on with your mind. A graceful heel, an exquisite "daylight" arch, this is a shoe you would wear in walking over velvet. The sort of a shoe that makes a formal costume complete.

Walk-Over Shoes are manufactured at Campello, Brockton, Mass., are sold in all the important towns and cities of the world, and the world over bear the same trade-mark.

LIEUT. LEMONS WEDS MISS GRACE O'NEIL

Writes to Relatives Here About Interesting Visit to Lumber Camps Where War Work is in Progress.

S. A. Fairbank was recently in receipt of a Portland, Ore., paper referring to the recent marriage of Lieut. James H. Lemons, formerly of Concord, to Miss Grace O'Neil. The principal facts are given in the following paragraphs. Lieut. Lemons in a letter just received by his friends here tells something about his wedding trip which was thru a very interesting country.

"Miss Grace O'Neil and Lieutenant James Hatfield Lemons were married Tuesday afternoon at 4 o'clock at the home of the bride's parents, Mr. and Mrs. J. O'Neil, father George Thompson officiating. Plans had been made for a large military wedding to be held Wednesday night, but the illness of the bride's father and army orders made it necessary that the wedding take place at once. Mrs. James Twohy, matron of honor, and Lieutenant Charles R. Russell, U. S. A., best man, together with the family of the bride, were the only guests present.

"After a wedding trip of 10 days Lieutenant and Mrs. Lemons will be at home at 491 East Fifteenth street North.

"Mrs. Lemons is an attractive girl and has a great many friends in this city. Since the announcement of her engagement she has been honored at several delightful affairs. Lieutenant Lemons is attached to the 14th Infantry, stationed on special duty in this city, and he has made a host of friends since coming here."

In his letter Lieut. Lemons said:

"In addition to the pleasure I received from my trip I also made it valuable from an educational standpoint in that I visited several large lumber camps in the spruce and fir regions which lie between the ocean and the Coast Range Mountains. The Hammond Lumber Co. has many large camps all thru this country and there are also many other firms represented. Practically all of the camps are working on government contracts to supply spruce for aeroplane production and are manned by enlisted men of the Signal Corps, with, of course, some reliable civilian labor. Very little trouble was experienced, I am told, with the I. W. W. in these camps as the presence of soldiers did much toward a peaceful promotion of the work.

"I rode for 45 miles thru the fir and spruce trees, in a Ford, the road being just wide enough to let the car thru and so rough, steep, and impassable that a Ford and Mule are the only beasts that can hold the trail. It was certainly a wonderful sight, those giant trees standing about ten feet apart and towering hundreds of feet high. The spruce production has been held up a little as far as the actual finished product is concerned but this is due to the fact that these woods were not near enough to any old line railroad to permit their being readily handled so it was necessary to build spur lines out into the timberland connecting with the nearest old line. It is rolling out by the thousand now. Having seen these miles of perfect timber you can appreciate just what a wonderful industry it is."

Every Corporation, The Fair Value of whose Capital Stock equals or exceeds \$75,000, is required to make this return to the undersigned on the new Forms.

Very truly yours,
J. L. Pickering,
Collector.

NO RUSH OF CANDIDATES ON FILING DAY

County Clerk Boruff Outlines Fair Plan Which Will Be Satisfactory To All Men Seeking Nominations On County Ticket.

With so much interest centered in affairs of the war, political conditions are quiet and the candidates for office are not as numerous as usual.

According to the law candidates for county offices must file petitions not more than sixty days prior to the election and not less than forty days. This means that next Saturday, July 13, is the first date for filing and Friday, Aug. 2, is the late date.

A few years ago there was a big scramble at each election among the candidates for county office to secure the first place on the ballot.

County Clerk C. A. Boruff four years ago devised a plan to do away with this practice and it proved quite satisfactory to candidates. This year Mr. Boruff will follow the same plan. All candidates will be asked to have their petitions in the offices of the county clerk by 8 a. m. next Saturday. All petitions will then be placed in a box and a person blindfolded will do the drawing. Mr. Boruff in explaining the plan he devised said: "I desire to state for the information of candidates for county office in Morgan county in reference to the filing of petitions, that they must be filed July 13 to August 2, inclusive. Those who desire to draw for first place on the ticket may do so by having their petitions at my office at 8 a. m. Saturday, July 13, this being the first opportunity permitted by law for filing.

"I will not recognize any line up or person with a petition until the first hour prescribed by law for filing, which is 8 a. m. Saturday, July 13. Each petition that is presented in readiness for filing at exactly 8 o'clock standard time, will be placed in a box where the petitions will be shaken in the box so that they will be well distributed; they will then be drawn by a disinterested party who will be blindfolded and they will be filed in the order in which they are drawn from the box.

"The names of the candidates for the several offices on each of the party tickets will be placed on the primary ballot in the order in which they are thus filed. The petitions when presented at the county clerk's office must be in proper form so there will be no delay with reference to the drawing. I would advise that the candidates submit their petitions before being brought to file to some person who is thoroughly acquainted with the required form of filing petitions. This plan will make it certain that every petition filed is in such form that it can be promptly considered in this arrangement."

The Overland Berger-Pine Co. has for sale the following used cars, two Ford touring cars, one Ford delivery truck, one Carter car almost new, and one almost new Maxwell car. These cars are all in good condition and the price is right. If you are in the market for a used car call or phone us. Overland Berger-Pine Co.

PAVING CELEBRATION IS PROPOSED

While the force of men now at work laying cedar blocks in the business district is not large, the work is progressing steadily with every indication that it will be finished in the course of a few weeks. The finishing of these pavements will really mark a new epoch in the business district, where the "side streets" have been in a bad state of repair for many months.

The fact that the whole district is soon to be open for traffic and with fine new pavements has caused the thought to come to a number of merchants that some special celebration will be in order when the work is actually done. No one has gone so far as to plan the particular type of observance and there is no thought of making it expensive. However, the completion of the work is really important enough to carry with it some sort of ceremonial observance and certainly if all the firms whose places of business are contiguous to the newly paved streets will join in the plan something worth while could be evolved.

EXEMPTION BOARD NEWS

More Men for Rahe School.

The following young men have been inducted into the service and will proceed to the Rahe automobile school at Kansas City. A special appeal came from the adjutant's general's office Tuesday to secure additional men for this school and the following were among those who made application and were accepted for the service:

Clarence Ranson, Jacksonville.
Laurance Fisher, Waverly.
Everett Reynolds, Jacksonville.

Leo Rook, Jacksonville.
Earl T. Wolfe, Woodson.
Fred A. Carter, Jacksonville.
Homer Nunes, Jacksonville.

James Richard Reynolds also made application but as he is a 1918 registrant there is some question as to whether 1918 registrants can be accepted. It is the opinion of the local board that in accordance with the recent call in "the nation's want column" that a 1918 registrant who waives all claims can be inducted into the service and assigned to this special duty. However, before Mr. Reynolds is accepted a ruling must come from the adjutant general.

Ben D. Inskip of Jacksonville was desirous of entering for this special service but failed to pass the physical examination.

Joel Crouch and Wilbur Rogers have passed the physical examination for the students army training camp at Ft. Sheridan and will begin their work there July 18. Two other students are still to be examined and they will probably be sent from cities other than Jacksonville.

Everett S. Armstrong of Jacksonville recently enlisted in the navy at Peoria after securing his release from the Morgan county local board.

The following men of the 1918 registrants will be examined Monday, July 15:

William Sheehan, Jacksonville.
Rex A. Gilliland, Chapin.
Howard W. Pennell, Murrayville.

Irving S. LaRue, Jacksonville.
Corba A. Leak, Waverly.
Hobart W. Basham, Alexander.

Francis B. Gunn, Jacksonville.
Omer Melton, Jacksonville.
Bryan L. Hocking, Jacksonville.

John W. Creed, Prentice.
James P. Donovan, Jacksonville.
Nathan Wilhite, Murrayville.

Merrill I. Cuzan, Jacksonville.
Orin C. Alderson, Waverly.
Clarence R. Taylor, Jacksonville.

Clarence B. Spaulding, Beaver Dam, Wis.

Oria S. Collins, Litchberry.
Willard D. Hall, Murrayville.
Charles E. Still, Murrayville.

Michael McGrath, Murrayville.
Ralph W. Crouse, Murrayville.
William E. Kuzman, Bluffs.

Wm. L. Douglas, Murrayville.
Carl O. Johnson, Litchberry.
Clifford Holler, Jacksonville.

Dennis C. Mason, Jacksonville.
Byron S. Sims, Jacksonville.
Carl B. Hill, Jacksonville.

Thomas E. Holbrook, Jacksonville.
Harry T. Ryan, Jacksonville.
Morris Hickerson, Alexander.

James Hoban, Jacksonville.
Clyde F. Fisher, Jacksonville.
Robert E. Gilbert, Jacksonville.

John A. Wahl, Woodson.
Wallace T. Hembrough, Jacksonville.
Carl Edgmon, Waverly.

Chester C. Hudson, Meredosla.
Carl F. Hamilton, Jacksonville.
William Anderson, Chapin.

Roy D. Brandon, Jacksonville.
Lloyd I. Clement, Jacksonville.
Charles O. Peak, Jacksonville.

Russell V. Seymour, Franklin.
John W. Claus, Jacksonville.
Leonard J. Casey, Davenport, Iowa.

Dana Swift, Waverly.
Russell E. Ornellos, Beards-town.
B. R. Bostic, Waverly.

Ray H. Maul, Litchberry.
Relatives of Clyde Black, who recently enlisted in the navy, were advised yesterday that he had been sent from Peoria to the Great Lakes Naval Training station. He has been assigned to duty as a landsman machine gunner with the naval aviation corps.

TENTED CITY FOR STATE FAIR VISITORS

The Illinois Centennial State Fair and Industrial Exposition management has leased the eighty acre park immediately west of the Illinois State Fair grounds for camping purposes and all State Fair visitors are invited to take advantage of this free offer. Tents and full equipment can be rented for one or two weeks at a very nominal cost—prices and a detailed information can be found in the beautiful premium list, a copy of which book can be obtained of your county clerk or by writing the Secretary at Springfield.

The fair opens in full blast on Monday, August 12th. The program this year, on account of the Centennial, will be big and interesting. Watch the columns of this paper the latter half of July for a detailed program of the fair. Take your family and neighbors, drive up in your car and have a vacation. Live in a tent and see the fair—really enjoying yourself for a week. Eighty-five families were there last year and 1000 families are expected this year. Arrange to go and see the big war exhibits which are being installed by the United States government and the British government.
